Economical paint lines for small to large parts

- This system specifically designed for Aqua-TRC paint.
- High-speed motor removes parts from tank quickly.
- Warmer parts exiting dip tank dry much faster!
- Minimal dip tank size. 50% smaller than previous models.
- Steeper incline saves floor space from previous models.
- Taller Dryer accommodates larger collection containers.
- Operates at 115V, single phase. Draws less than 5 Amps.
- Sizing: TRC-150 = 150mm (5.9”) wide incline belt.
  TRC-300 = 300mm (11.8”) wide incline belt.
  TRC-450 = 450mm (17.7”) wide incline belt

Models Available:

TRC-150
TRC-300
TRC-450
